

## PUB MC ACTION CODE REPORT

Use: This report is used to list all the case files related to a specific action code.

Description: This report lists all claims within an administrative state, county, district and/or resource area for any specified action code. You can specify case type(s), case disposition (active, closed, or all), action code, and action date. The report is in serial number order and also lists claim name, geographic information (meridian, township, range, section, subdivision), claimant(s), casetype, action code and date. This report counts unique serial numbers and not the number of action codes. The end of the report lists the total number of claims/serial numbers listed.
