EMS TRANSMISSION: 06/04/2003
Instruction Memorandum No. AZ-2003-018
Expires: 9/30/03

To: All Field Managers

From: Deputy State Director, Division of Resources

Subject: Submission of Pesticide Use Report for FY 2002

DD: 06/13/2003

As directed by Bureau of Land Management (BLM) Manual 9011-Chemical Pest Control, Part 13C and H-9011-1, Part C.3, and Washington Office (WO 220) Instruction Memorandum 2003-178, the BLM is required to submit an annual Pesticide Use Report to the Environmental Protection Agency. Every Field Office that applied pesticides during FY02 is required to submit a report. The Pesticide Use Report consists of three tables. The format for each of these tables is shown in Attachment 1. An example of a correctly completed Pesticide Use Report is shown in Attachment 2. Please remember to report pesticide use for weed management, insect control, forest pests, prairie dog control, etc., when filling out the tables.

Table 1 should include the chemical name (not trade name), pesticide use rate in pounds active ingredient per acre, acres treated, method of application (air or ground), and total active ingredient. Table 2 should include the total acres treated by aircraft and ground application, and Table 3 should include each chemical's total pounds active ingredient applied for each chemical in your state.

Please complete the tables and respond electronically to L.D. Walker on or before the deadline date for consolidation of all Arizona reports. L.D. will then send the Arizona response via memorandum to WO 220.

If you have any questions, please contact L.D. Walker at (435) 688-3242.
