Subject: Training on Rehoused Wild Horse & Burro Information System
DD System
2/3/98
DD: 2/6/98

The rehoused Wild Horse and Burro Information (HB) System was put in production on January 5, 1998. To enhance field offices' ability to enter and retrieve data from the system, a 2-day training course in its use has been scheduled for February 18 and 19, 1998, at the National Applied Resource Sciences Center in Denver.

The target group for this session is the primary data entry person from each administrative State. We hope to be able to follow up the training with visits to field offices over the next several months. In the interim, those attending will be expected to assist others in their States with data entry and retrieval.

Because of the importance of the HB system to the smooth functioning of the wild horse and burro program, the States may charge the cost of the travel of one employee in the target group to the Washington Office (WO-260). If it is important for more than one person to attend from a State, the sending office will be responsible for the additional travel, and the attendee from that State should expect to share a terminal during the training.

A block of rooms has been set aside at the Denver West Sheraton, 360 Union Boulevard in Lakewood (303) 987-2000. Attendees should make their own reservations by February 3, 1998, to ensure a government rate within the Denver per diem rate of \$92 lodging and \$34 M&IE, not to exceed \$126 per

Please contact the User Representative, Dick Stark at (303) 236-0157 to confirm attendance or to ask any questions. State attendees must be confirmed by February 6, 1998, to ensure a slot. Slots not confirmed by that date will be made available to other offices.
