Subject: Elder Care Resources Library

The National Human Resources Management Center has established an elder care resources library to assist employees in caring for elderly family and friends. This library has been developed primarily to put employees in touch with the many free resource organizations and agencies that can help you meet dependent care needs.

Information from local and national agencies has been collected on a number of senior topics including; finances, health care, housing, long-term care, and nursing home care. Additionally, we have provided a listing of websites, which may help you to find additional information.

The elder care resources library is located in the Career Resources Center within the Human Resources Office of Building 50.

If you have any questions, please contact Holly Boyd at 303-236-0698.
