EMS TRANSMISSION

Information Bulletin No. NV-2003-018

To: Field Managers, Nevada

From: State Director, Nevada

Subject: President's Healthy Forests Initiative IM-2003-035

DD: 12/18/02

A directive from our National Director is requiring the analysis of our forest and woodland programs in each state. There is a growing consensus that more active forest and woodland management is needed to improve the health and resiliency of our forest and woodland ecosystems and reduce the risks to firefighters and communities at risk.

Each Field Office is requested to provide necessary resource support to develop a Forest Health Action Plan within a very short time frame. Please have your personnel work closely with Pat Murphy, Forestry Program State Lead, in the development of your "Action Plan".

Please submit your Forest Health Action Plan to Pat Murphy, Forestry Program Lead by December 18, 2002 COB.

Should you need further information, contact Pat Murphy at 775-861-6466.
